“ A lot of folks may not remember it but Mrs. Brasher also taught Economics. I had her in a summer school class in the summer of 1971 at Albertville High. I will never forget how well she used common sense examples to explain Economic theory. I still remember her lesson on "The Law of Diminishing Returns". I used the same example in the Economics classes I taught. R.I.P. Mrs. Brasher.

“ Ms. Brasher was a teacher I have never forgotten. It was during her time at Etowah High School. She knew in Biology, that there was no way some of us girls could do some of the assignments like with the worm, pig, etc can but with her understanding and kind heart we made it through. She was tough and you did no skating by in her class . I will remember her with wonderful memories and fun times of learning.. Also her beautiful pearl ring on her left hand. RIP eternally 🌹🌹🌹

“ Miss Brasher was a great teacher despite that I hated the class itself. She was patient and caring, a truly dedicated educator.

“ I taught with Miss Brasher for several years at AHS. Her Caronation Ball could not be matched in it's elegants. The Year Book she produced won numerous awards over and over through the years. She was a dedicated, creative and fantastic teacher. She was one of the top teachers that I ever knew. Miss Brasher we love you and we will never forget you. RIP our dear friend.

“ I LOVED Mrs. Brasher! She was my favorite teacher of all time. Very strict, and no nonsense. I learned more from her than all my other teachers put together. She taught my parents at Etowah, then me, from 1975-1978. I was lucky to have known her, and had her for a teacher. 😭❤️

“ *She was a big part of my life when I was in high school. Having her for class, as her lab assistant, on the annual staff, and as a friend. She was a great lady, very involved with her students. She effected so many people's lives in her life.*
